Career Summary

Full Stack Developer with 2+ years of experience building scalable web applications, admin dashboards, and enterprise platforms using React.js, Next.js, Node.js, Express.js, REST APIs, PostgreSQL, Oracle Database, and MongoDB. Experienced in developing production-ready systems for HR management, trading, and real-time notification workflows. Also works as a Lead Trainer for Full Stack Development, delivering structured training to aspiring developers.

Work Experience

Suffah Institute of Technology

May 2025 – Present

Lead Trainer

- Lead Full Stack Development training sessions, delivering the complete course curriculum to multiple cohorts of 20+ students each, achieving a 90% course completion rate.
- Designed structured learning modules and hands-on lab exercises to improve student understanding and course completion outcomes.
- Developed and documented coding examples and class exercises using React.js and Node.js to support practical learning.

Nubit Software (Pvt) Ltd

September 2024 – Present

Full Stack Developer

- Built a complete HR Management System (Nutrack) with role-based access for Admin, HR, Accountant, and Employee, supporting 50+ employees and reducing manual HR reporting time by 90%.
- Developed the frontend for HedgePlay and integrated APIs for an automated trading platform for the Pakistan Stock Exchange (PSX), enabling real-time trade execution.
- Built backend services and an admin portal for a stock notification system, delivering real-time buy/sell alerts to 500+ users with 95% notification delivery reliability.
- Developed the Nubitsoft company profile website with an admin panel, reducing manual content update time by 95% through blog and career form management.
- Collaborated within an Agile team structure, participating in sprint planning and regular stand-ups to deliver features efficiently.
- Promoted from Intern to Full-Time Developer within 3 months based on performance, independently handling both frontend and backend development across multiple production projects.

Nubit Software (Pvt) Ltd

July 2024 – September 2024

Frontend Developer Intern

- Developed responsive UI components across 6+ web pages and integrated REST APIs for dynamic data handling.
- Improved cross-browser compatibility and page performance, contributing to a 90% reduction in reported UI bugs.
- Collaborated with senior developers on UI/UX best practices using Git and GitHub for version control.

Education

BS Computer Science – Sindh Madressatul Islam University

Expected Dec 2027

Certifications

- Web and App Development – Saylani Mass I.T. Training (2023)
- How to Grab International Projects Using Freelance and Social Media – Jawan Pakistan (2024)
